

Asian Buffalo Hunting in Argentina

Asian Water Buffalo Introduced From India Estancia El Duranzo Multiple Species of Big Game & Bird Shooting

Season: All year (No bird shooting Mar 1-Apr 15)

These impressive buffalo originated in India, and are mean and unpredictable when pressured. They are larger in size than an African Cape Buffalo. This is an exceptional value in dangerous game hunting all year long.

The estancia covers 200,000 acres of varied terrain, from semiarid pampas to woodlands full of shrubs, to forests. The property features over a 100 lakes, lagoons and potholes. It is located in the province of San Luis, about 45 miles south of the city of Villa Mercedes, which is west and slightly north of Buenos Aires. It's closer to Mendoza and the Andes than it is to Buenos Aires.

Buffalo hunting can be combined for several species of big game, along with very good bird shooting for doves, pigeons, ducks, and perdiz. Hunts are fully guided, and will be conducted by horse, vehicle, and stalking.

Five-day hunts are \$3990 for the stay & hunt

Big game species trophy fees US\$:

Buffalo	2000	Red Stag	2500
Wild Boar	300	Axis deer	1800
Black Buck	700	Fallow deer	1000

Additional Costs: License \$200., Government certification and travel permit \$90 per trophy. Group transfer is \$200 from Villa Mercedes, charters quoted on request. Shotgun Shells \$14.00 per box, shotguns are available for rent.
